

Our River Health Monitoring Program Needs YOU!

The Georges River Combined Councils' Committee invites all Georges River catchment residents to help give our rivers a health check.

HOW HEALTHY IS YOUR CREEK?

Come along and work alongside scientists and help us monitor the ecological health of our local creeks and rivers.

We will train you to collect and identify water-bugs. Community and school groups and Bushcare volunteers are encouraged to join us. **Please note:** Overall access is mildly difficult. You **MUST** have at least an average fitness level. Please bring a long sleeved shirt, gumboots, food and drink.

Bookings are essential - Please RSVP to: info@georgesriver.org.au

When & Where:

SATURDAY 7 MAY 2016
Orphan School Creek,
Fairfield West

SATURDAY 28 MAY 2016
Dairy Creek, Oatley
